

It's that time of year again...

REGISTRATION

for **Returning Students!**

WELCOME BACK!

Calhoun County Schools is proud to announce that we have partnered with

InfoSnap is an online student registration software solution. This exciting new partnership will enable our schools to more quickly and efficiently enroll new students and update existing information on current students. This web based solution will eliminate the majority of the paper forms that are required to be completed by parents each year. This will enable the registration process to be friendlier to parents as well as school personnel.

How it works: Guardians of all returning students will be required to log into the InfoSnap portal and review and update their student and contact information. You will receive an email containing instructions on how to begin reviewing your student information currently on file with the Calhoun County School System. If you do not currently have an email address on file, a printed letter will be sent home with instructions on how to proceed. The online enrollment process can then be finished at your home or anywhere with an internet connection. Infosnap has simplified the yearly registration process so you no longer have to fill out dozens of paper forms. You no longer have to write your child's name on every page and if multiple children are being enrolled, Infosnap will allow you to transfer addresses and contact information to other children under your care.

Other information you may need: The initial registration email from Infosnap may be caught by your email spam/junk filter. Please add the domain **@infosnap** to your safe email sender list. If you experience technical difficulties contact Infosnap toll free at (866) 752-6850 or support@infosnap.com. If you require clarification of a question being asked during the online enrollment process please contact the local school.
