

Pleasant Valley Elementary

First Grade

This packet contains some reading, math, and writing activities your child should complete at home due to the school closure. In addition to these sheets, students should complete the following for 15 minutes per day per program if you have internet access.

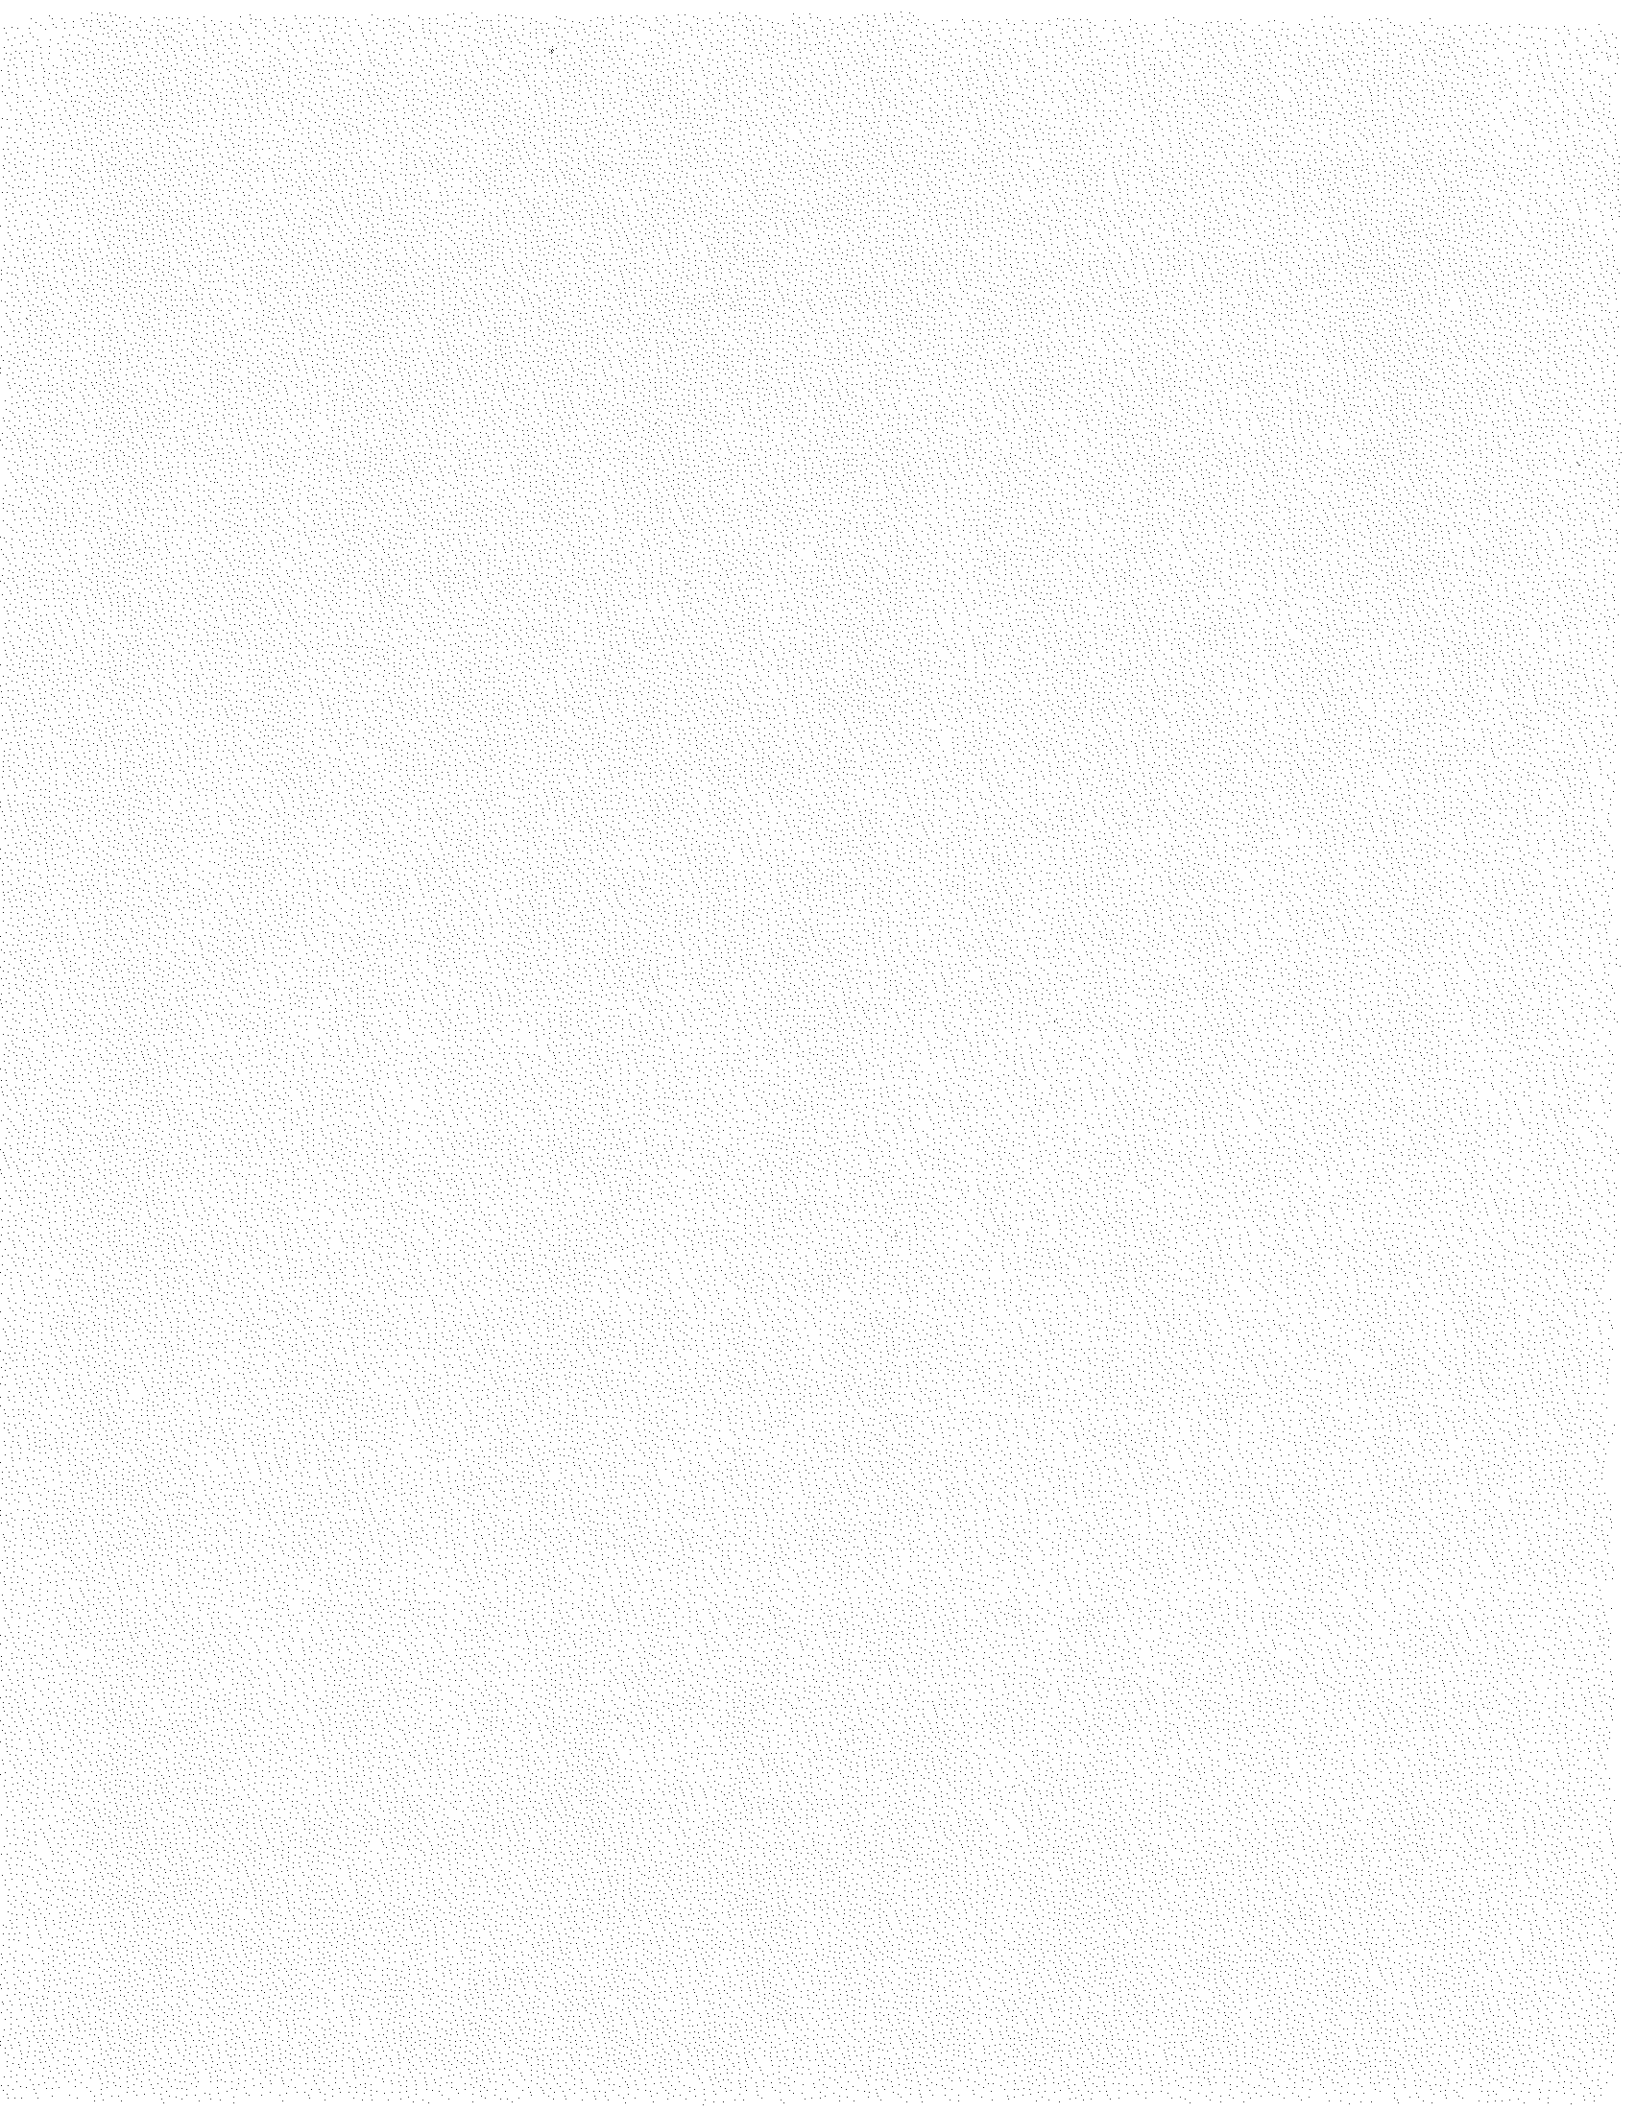

- iRead-This program reinforces all reading skills taught in class. (It may work better to access this program through Firefox browser.) Go to www.hmhco.com/products/iread/family/ Click log in, enter the school zip code (36265), and select ok. Select Calhoun County School District in the drop down box and click go. This will take you to the site the children are familiar with. They will then login just as they do at school with pe before their lunch number. (No spaces) This is their username and their password.
- IXL-This program gives math practice for all of the state standards. Go to <https://ixl.com/signin/pves> and enter your child's username and password and click "sign in."

Username-lunch number@pves

Password-first name (all lowercase letters)

Please continue to review high-frequency words (HFW) and spelling words in the front of the planner and let your child read at home to you as much as possible. We hope you all stay well!
